Junior Mine Water Engineer/Scientist Job Description - Engineering Company – Denver

Global Resource Engineering is currently looking for a Junior Water Resource Engineer/ Environmental Scientist position with the desire to be part of a growing engineering group in Golden, Colorado. GRE is a dynamic company with a significant and recognizable client base. We operate in just about every engineering field serving the gold, base metals, and industrial minerals industries. If you want to work for an energetic company, gain a diverse experience and be a contributor to our joint success, send us your resume.

Work will include development of water balance models, surface water flow models, and other water analysis required for our hard-rock and battery metals mining clients .

The Ideal Candidate would have some (but not all) of the following:

Degree in Environmental Science, Environmental Engineering or Civil Engineering. An EIT or PE is preferred.

3-7 years of progressive experience in water resource engineering or water environmental science.

- Experience with any of the following: water balances, surface water flow modeling, surface water management system design, and other essential hydrology-related tasks.
- Good Excel skills.
- GoldSim experience is preferred.
- AutoCad skills are preferred.
- Strong written and verbal communication skills.
- Strong analytical and problem-solving skills.
- Experience with hydrologic or hydrogeologic investigations
- An interest in investigating and solving the water resource issues which are often the single-greatest challenge of mineral resource projects.
- Ability to work in the field and to travel outside the local area, depending on workload and project locations.
- Bilingual or proficiencies in Spanish is preferred.
- Passport is required for international travel programs.

What we offer:

We are growing our engineering company to new levels every year and we need young energetic talent to be the next leaders in our company.

All of our team members are well compensated:

- Competitive salary,
- Excellent vacation and time off benefits,
- Group benefits package including,
 - A retirement plan with employer contributions,
 - Extended health, dental and travel benefits,

- Performance and Profit Sharing Bonuses,
- Conferences,
- Training and learning opportunities.

In compliance with Colorado law, this job offers the following:

- Salary range of \$70,000-80,000/year, experience dependent, higher for more-experienced candidates
- 401k matching
- 50% employee payment of health insurance, vision insurance, and dental insurance. Additional dependents are not subsidized by GRE.
- Eligible for performance and profit sharing bonus
- Paid time off (PTO) based on experience.
- Nine designated paid holidays.

Interested applicants should send their resume and cover letter to:
